KB100, KB101, KB110, KB111 REPLACEMENT LINER LID INSTRUCTIONS

P/N 827-KIT, 828-KIT, 829-KIT, 830-KIT

Tools Required:

Phillips Head Screwdriver

- 1. Remove the changing station from the wall.
- 2. Locate the horizontal slot on the back of the unit next to the top of the shock.
- 3. Take the replacement liner dispenser lid and insert into the slot. The plastic lip should remain on the outside of the unit.
- 4. Open the unit to ensure the lid is positioned correctly.
- 5. Remount the unit to the wall.
